1. There are thousands of different mammals, some examples you could choose: whales, elephants, lions, bats, rhino, dolphins, mouse, baboon, humans!

2. Mammal Facts

- All mammals need to breathe **AIR**, even marine mammals like whales and dolphins
- All mammals have either **FUR** or **HAIR**
- All but 2 species of mammal give birth to **LIVE YOUNG**. Platypus and Echidna are the only mammals that lay eggs.
- Baby mammals are fed **MILK**
